

Re-engineering Procurement & Supply

Quantum Leap Performance for Next Level Procurement

SYNOPSIS

The program covers the concepts of Re-engineering Procurement and Supply and focus on how the Procurement and Supply function can achieve quantum leaps performance and maximise cost savings for the organizations.

KEY OBJECTIVES

- Change Management in Procurement and Supply to 'add-value' and be the positive contributor to improve performance at the next level
- BPR Structured Approach for successful re-engineering procurement and supply
- Re-engineered procurement process starting from 'a piece of blank paper'

The 2-day program will provides the opportunity for participants to benchmark the existing processes against the processes of successful global organisations. Moving forward, RPS is the roadmap to elevate the overall performance of the procurement function to the 'next level'.
